PRACTICE EXAM FORM

Past exams are a great tool to use when practicing NCEA style questions, and getting used to exam conditions. However, it is important that you use them efficiently!

We suggest sitting down with a **past exam paper** and timing yourself to complete it. Then, spend some time going through the markig schedule to work out exactly what you did wrong. Once you have isolated your problem areas, think of a strategy you can use to get better at answering questions on each topic.

Year and Question	Topic	What I did wrong	How I will avoid making the same mistake next time
