## TASK

ASSESSOR'S  
USE ONLY

Support your answers to all parts of the task with social studies concepts, and give specific evidence and examples.

- (a) Identify and describe the nature and cause of a conflict you are familiar with, arising from different cultural beliefs and ideas.

The cultural conflict that has come up is against the Israeli people and Palestinian people fighting for land. Long ago the Israeli people had fled to find a new home. They came to the Palestinians where they lived in little camps. As time went by, the Palestinians could see that the Israeli people were growing, more ~~and more~~ Israelis were born, which meant that the Palestinian population was decreasing. As the Israelis grew, they kicked out the Palestinians into a refugee camp. Where Israel had rule over the Palestine. People began to argue, tension was building in this small country. People started to attack each other claiming that the land was theirs. A while after that the Israeli people claimed that the land they were now living in was given from God therefore they ruled the land and had the Palestinians live in little refugee camps.

because of this it made the palestinians very angry because it was their home land, therefore people started to go against the Israeli people and the Israeli Government that they would start to throw rocks over to the Israeli military, which would only create much more damage because the Israeli military was told to strike them. because things had gotten out of control the Israeli military went around and put big concrete walls around to separate the Israeli people from the Palestinian people. ||

- (b) Describe the points of view, values, and perspectives of the individuals/groups involved in the conflict.

ASSESSOR'S  
USE ONLY

The military points of view were very straight forward. Being part of the military was just something you had to be apart of once you were reached a certain age. All they wanted was to help help fight for there country. They believed that it was Gods promise to them. It is why they claim it is their home country.

Another point of view, would be from the Israeli prime minister, he quoted that it would be better to have more soldiers for the Israeli army military. It is why they have made it compulsory for boys in Israel to join the military at the end of the school. They have to serve the country for at least 1 to 2 years. It is believed that that is the way to help protect Israel from the Palestinians.

c) Explain how TWO social forces contributed to the conflict.

Religion being a main force. Believing in their religion is another one. Because the Israeli people believe in one thing and the Palestinians believing in one thing causes huge tension between. For an example, there is a Jewish temple right next to a Muslim temple and not too many people who are Palestinians aren't allowed in Israel because it would be too crowded and in case of an attack.
